IRCTC Landing Page
Redesgin-UI/UX Case Study

My Role	Timeline	Tools
UI/UX Designer	12 hours	Figma

Overview:

Redesign the Indian Railway Catering and Tourism Corporation (IRCTC) ticket booking website to make it modern, accessible and more user-friendly while keeping their credibility intact

The Problem:

-Navigation bar is too cluttered.

-No search bar.

-Logo's position isn't defined properly.

-Problem with font hierarchy.

-Sharp corners of boxes.

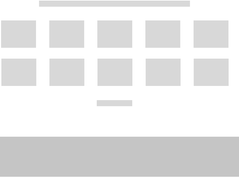
-Confusing layout of train booking box.

-Ask Disha assistant isn't visible properly.

-Images are not clear.

-Footer is unorganized.

Wireframe of Landing Page



Key Improvements

-Reduce Navigation bar.

-Change Register and Login button position.

-Change Logo's position.

-Maintain font hierarchy.

-Make rounded corners of boxes.

-Change layout of Train booking section.

-Make Ask Disha assistant more visible.

-Organize footer.

-Add high quality images and logos of social sites.
